

CHILD WELFARE LOCAL ASSESSMENT PROCESS REGIONAL INFORMATIONAL ROUNDTABLES

The Division of Children and Family Services is holding a series of regional informational roundtables to explain the local assessment process for county child welfare programs that will be conducted during the spring of 2001. These roundtables are designed to explain the assessment process to persons who will be part of the leadership teams for the local assessment process, county child welfare staff who will facilitate the local process, and other interested individuals. The roundtables will provide an opportunity for persons who will be involved in the local assessment process to have an overview by state staff, ask questions about the process, and participate in discussions on how to best conduct the local process. Persons planning to attend the roundtables should please RSVP with the regional office contact listed. There is no charge to attend the roundtables and persons can attend any session if they cannot make the meeting date in their region.
